CENTRE STAGE

CentreStage is the perfect partner to match Revelation and Illusion in high quality home theatre systems, integrating perfectly to create a seamless soundstage.

Like these floorstanders, CentreStage extracts subtle detail in such a natural manner that it redefines performance levels in a centre speaker and raises the realism of on-screen action several notches.

To portray the life-size on screen action and the demanding explosive type sound effects we chose to use two SEAS 17cm bass/midrange. Doubling the cone area increases system efficiency, speed and dynamics while maintaining the all-important harmonic structure and frequency balance.

The phenomenal Morel Supreme 110 tweeter sits between these in an MTM configuration and combined with an extensive two-way crossover network is guaranteed to extract every little nuance from dialogue and sound passages.

CENTRE STAGE SPECIFICATIONS

System type:

2-way MTM configured 3 speakers.
Bass reflex and front ported.

HF driver:

Morel Supreme 110 28mm soft dome.

Bass/Midrange driver:

2 x Seas 17cm specially treated and coated
cone in injection moulded metal chassis.

Room response:

60Hz-22kHz

Averaged Sensitivity:

90dB/1 watt

Impedance:

4 ohms nominal (4 ohms minimum)

Crossover:

2400Hz, impedance corrected

Dimensions(cm):

60 x 18.5 x 28 (w x h x d)

Features:

Bi-wire input terminals.
